Report Writing with Proc Report

Course Length: 1 day **CEUs** 0.6

Format: Hands on Training

AUDIENCE

This course is designed for SAS® Software users who want a complete understanding of PROC Report.

BENEFITS

This course is designed to demonstrate all of the capabilities of the Proc REPORT procedure, as it is available on line and in a batch environment. Attendees will be able to create reports without the need to write program code in a WYSIWYG environment.

PREREQUISITES

Completion of the Programming I: SAS Essentials course or equivalent understanding.
